By WALTER M. BARRETT

Once more the question of whether or not this region needs or deserves a unit of the state public health service has arisen and a group of earnest members of the Wyethia Women's Club is seeking enlightenment. This whole program was thrashed over some years ago with the need being pointed out by leading health officials, but on every hand the project was stalemated by apathy or opposition. Minor outbreaks of epidemics in widely scattered sections of the county fail to leave any noticable impression on communities not affected. We are inclined to sit back and trust that we will never be confronted with disease in epidemic and devastating violence, but with a properly organized, well maintained up to date public health unit we could be in an enviable position and the cost for this service, we are told on good authority, would be little or no more than we are now paying for something we are not getting. We hope the committee is successful in finding the truth.

We still believe that there is too much leniency in the issuance of licenses to operate motor vehicles in California. The examinations are too simple and there are very few people who are deprived of the privilege of driving regardless of their mental or physical fitness. Then, too, there is the problem of taking licenses away after they are once issued. If for some very good reason a license is revoked it is usually only on a temporary basis and for some flagrant violation caused by the driver who should never have been issued a license in the first place.

Wyethia Club Centennial Committees Are Named

At the meeting of the Wyethia Club last Thursday, Mrs. W. C. Gage, president, appointed a committee for the Donner Centennial Sept. 21-22. Mrs. N. F. This committee will have charge of the float which will be in the parade and will plan the acivities of the club for the centennial.

A separate committee was appointed to select a queen candidate to represent the club in the contest. Mrs. R. P. Bick is chairman, assisted by Mrs. Jack Wolert and Mrs. Elizabeth Bavier. The committee has selected Bobbie Jean Dolley as its queen aspirant.

The meeting to be held on September 5th will start at 10 o'clock at which time members will work on the details of the float. All are asked to attend and bring scissors and needles.

Gun Threat Draws $500 Fine, Jail Term for Sales

Walter "Chick" Sales, 34, fireman for the Southern Pacific, was sentenced to spend six months in the Nevada County jail and pay a fine of $500 when he appeared before Justice of the Peace R. N. Little this week on a charge of exhibiting a deadly weapon in an angry manner. Unless the fine is paid, Sales will be required to spend an additional 250 days in jail.

Sales was arrested by Deputy Constable John Collier after the former allegedly threatened the foreman of the roundhouse, Lee Hudson, and Mrs. Mary Giovannoni, call girl for the railroad, with a loaded revolver.

According to Hudson, Sales went to the roundhouse and demanded to talk with Mrs. Giovannoni. The foreman told him it was against the rules and Sales is said to have pulled the gun to emphasize his demands. Collier was called and made the arrest.

Body of Suicide Is Discovered In Woods By Road

Former Hotel Man Asks Money Be Given To Paralysis Fund

Stanley Valentine Modell, 44, recent clerk at a Lake Tahoe hotel and formerly of Oakland, shot and killed himself while sitting in the back seat of his automobile parked four miles south of Truckee near the Truckee-Tahoe highway, according to officers who investigated.

That Modell first attempted to take his own life by inhaling the poisonous fumes of the car's exhaust was revealed by State Patrolman William Gautsche who aided in the investigation. The muffler and exhaust pipe had been removed and a heavy stone placed on the accelerator. Modell removed his shoes, buttoned an overcoat about him and retired to the rear seat. Evidentally the method he first selected proved ineffective and he was said by officers to have placed a .22 calibre revolver against his head and fired.

Before ending his life, Modell gave explicit instructions to officers in a note on his body. The note read:

"To the Police, Sheriff or Such Interested Person as may be interested in the disposition of my remains:

"I have no relatives or friends in California. You may, however, notify my wife from whom I have been separated since 1935, Mrs. E. L. Modell, 4816 Erie St., Chicago, Ill.

"You may dispose of the Hudson to cover costs involved in the disposition of my remains. Anything left, plus what you find on my person, I wish you would be kind enough to donate to the Infantile Paralysis Foundation. Thanks. S. V. Modell. Bill of sale for Hudson on my person."

It was believed that Modell died the morning of August 11 as a paper dated August 10 was found in the car and the body indicated that it had been there some time when found four days later or last Thursday evening.

There was currency totalling $658 on the man's person. A driver's license gave his address as the Menlo Country Club, Redwood City. Coroner Francis West of Colfax called for the remains, which were discovered by a fisherman who reported it to State Patrolman George Smith and Constable Harry Johanson of Tahoe

Birth of California Republic Almost a "Lost Weekend"

In the year 1846, history pointed a finger at the peaceful village of Sonoma.

In May of that year, President James K. Polk had proclaimed the existence of war with Mexico and three weeks later Colonel Stephen W. Kearney had been ordered to advance from New Mexico and take possession of Upper California.

Meanwhile, Captain John C. Fremont, whose scientific expedition was camped in the shadow of the Marysville Buttes, had become convinced that General Castro, commandant general at Monterey, was about to expel all foreigners. He sent messengers to warn settlers to arm themselves.

On June 10, at the ranch of Martin Murphy on the Consumnes River, near the point where Highway 99 now crosses that stream, was fought the first "battle" of the campaign that brought California independence. A party of settlers, headed by Ezekial Merritt, attacked a small group of California soldiers escorting a band of horses. The horses were taken to Fremont's camp. The escort was freed.

Next day Merritt and some 30 followers set out for Sonoma. On June 14, they attacked undefended Sonoma, captured General Mariano G. Vallejo, declared in favor of a government founded on republican principles, elected William B. Ide commander, and raised a flag bearing on its field a bear, a star and the words "California Republic."

There were almost no casualties in the revolt but the Americans who raised the flag nearly experienced a "lost weekend" because of the liquid hospitality of the friendly Californians.

So suggests Dr. John Walton Caughey, professor of history on the Los Angeles campus of the University of California, in a recent issue of Westways Magazine.

General Vallejo was urged by his wife to flee but deemed such a course neither honorable nor necessary. He invited the American leaders in and offered them wine and brandy.

Commander Ide relates in his journal that "the bottle well nigh vanquished the captors."

But some of the stronger characters among the American party raised the first crude Bear Flag—a white muslin field, bottomed by a red flannel strip, with a star and a bear in the upper part and the words beneath. Vallejo was sent to Sacramento to be a prisoner of Captain Fremont and the people of California had taken the first step to break away from Mexico.

Tahoe Letter
From SWANEE

Tahoe City, California.
August 19th

Dear Tahoeites:

Monday morning again, so here we go for a few news items and some friendly chit-chat. The sun still shines but not as heartily as yesterday. Large, billowy white clouds dot the sky and cover much of the southern end of Tahoe. Already the fields are becoming dry and brown in espots, and as the cheery chatter of the chipmunks becomes daily more pronounced, we native Tahoeites begin to realize that it is not too soon to begin thinking about filling up the larder for winter consumption, and getting in wood before showers arrive.

This year there will be no shady fields dotted with the gorgeous cream-white plumes of skunk cabbage, for the bushes all appear to have been frosted and stunted. They do not always appear every year, but the seasons when they do every Tahoe field and glade dons added beauty and glamour. All the plants I have seen so far are tinged with brown and are undersized, much to my regret.

Yesterday was a gorgeous day for the special dedication ceremonies held at the Tahoe Episcopal outdoor chapel in honor of the service personnel of Tahoe families, both living and dead. Bishop Porter conducted the impressive ceremony which was attended by an estimated 700 persons. Seating capacity was provided for approximately 600, and there were at least 100 guests standing at the rear. Henry J. Kaiser, who holds the honorary title of bishop's warden, wearing the academic robes of a doctor of science, delivered the day's keynote address from the pulpit just outside the building.

And for my small part in this Wall of Memory, I have listed to date at total of 146 names of the boys and girls of this region who have seen —and some still seeing—service with the armed forces from this district. It is my hope that not a single name will have been omitted when the final listng is complete.

Carol Droste a short time ago received her campaign ribbons from the African, European and Mediterranean areas, wehre she saw extensive duty as a hospital assistant with the American Red Cross. Although she has declined to wear them, we'll bet a cookie they will remain a cherished symbol of the dedication of several years of her young life to a mighty worth while, soul satisfying cause.

We welcome back to the Sierra Sun fold, after some years of abseice, an old subscriber, Al Fanger of Tahoma and Vallejo. Al owns a summer resort in the Tahoma area, and plans next spring to return to Tahoe where he will improve his property and erect more cottages. This month he completes a period of six years service with the navy at Vallejo, for which

SUMMIT SCENE

by FRANCES COUILLARD

Last week Slim Mabery of Donner Summit Lodge very kindly entertained the Camp Fire Girls at Camp Pahatsi. Slim donned one of his bright cowboy shirts, played his guitar for the girls at the dinner hour and sang some of his inimitable ski songs. Afterward he entertained them further with his very excellent colored slides. We think Slim made a hundred new ski convertrs.

We on the mountain partook of many barbecues during the last week. A very sumptious repast was served at Ice Lakes for about fifty. The lamb was delicious and afterward we danced over the lake—on a platform, of course.

Another barbecue that we heard about was served on the veranda of Sugar Bowl Lodge. Mrs. Gordon Hooley tells us that a western touch was added when one of our local chaps rode his horse up on the porch. Oh, well, we all know that the Sugar Bowl veranda is sturdily built.

Last week Bud and Betty Horak and Art and I went over to the Tahoe Tavern where we were entertained wonderfully by the John Flaggs. Art, who insists on being rugged, had to don a tie before he could enter the dining room, but after we had him tied we really had a grand time. The tavern was crowded and the new cocktail bar seems to be doing a fine business. Don Horn, one of our ski kids, could be seen in a white apron being quiet for a chnge and serving drinks very politely. Maybe they don't know that Don is a "trick" mixer but we have seen Don do some pretty incredible things with a couple of glasses and a hunk of ice. On this side of the bar we feasted our eyes on Ella Raines, the movie star, and Mr. Saks of the Fifth Avenue New York Saks whose beautiful togs we admire in Vogue was resting on the spacious lounge.

We are told that Larry "Gratz" Powers, another of our ski instructors on the Mountain, is working for Carl Bechdolt at Tahoe Inn.

Byron and Dorothy Johnson with their new baby are also back in this area. The Mountain always claims its own and we wish we had a few more housing faclities up here to take care of all of our kids. Byron and Dorothy are trying very hard to fit their family in a very crowded space and until they get their own little house habitable, they even have to pack their own water. But they are home and consequently happy.

Barry Bruce, another young fellow who has had the mountain fever for years, found it impossible to work in the city. He finally chucked the whole deal and came back to the mountains. He is working hard for Bud Walton at the Donner Ski Ranch and he and Elva, his ex-chief storekeeper Spar wife, have fixed up Dr. Roy Jones' garage for a little home. It's attractive too. Says Elva, "It isn't much but it's the first place we've had to call our own since we married." Seems they couldn't find a thing in the crowded bay area and had to live with relatives.

Jack Pirtle came home from the service. He is living in the Roy Thompson's cabin until he can locate some place or the other to live.

George Rudolf, he who sells ski togs up here in the winter, is contmeplating building himself a cabin on the highwa.

Slim Maybery tells us he has to live someplace and it might as well be here, so he is dickering for a lot on which to put a place.

Some people by the name of Buik, whom we don't know. are building a place up here that is perfectly round. We are intrigued. They come up on week ends and the whole family con be seen with hammers. They are now putting up a second story on their round house. Can hardly wait until it is finished.

Donner Summit Lodge has started on their new structure. Jack Wolert of Truckee is the contractor and with the number of men on the job we think, perhaps, they will beat their race with the first snows.

George Fraley tells us that he has hardly a highway lot left to sell and we know several people who have purchased same that are anxiously awaiting the time they can get the lumber and materials to build. We look for Highway 40 between Emigrant Gap and the Summit to be pretty densely populated before too many years.

A far sighted individual by the name of Carl Roemer has put himself forward in the businessman's list by establishing a beauty shop in the Soda Springs Hotel. Carl is also a barber and our men folks no longer have to travel to Truckee, 14 miles, for a haircut, or to Colfax. From what we have observed of these hair cutting expeditions, we think the boys are going ot miss their trips.

John and Celya Zahara of San Carlos, ardent ski fans, are building themselves a little rope tow back off the highway. John and Celya are a quiet couple whom we all are glad to see join our community. They are excellent folk dancers and all of their talents are not in their feet. They recently perfected a system of glazing and baking lace. They have a kiln in their studio at San Carlos and have turned out some beautifulcigarette boxes, plaqes and other things in the gift line. They gave us a plaque—an ivory affair with a lace fluted edge highly glazed.

We think a fine gift shop on the Mountain would be an enterprise that someone should look into. We in the post office are constantly being harried by tourists who want to know where they can get mementoes of the area.

Women's Club of Tahoe Talks Over Ambulance

TAHOE CITY— A special meeting called by Mrs. Ben Callender, president of the Women's Club of Tahoe for Tuesday afternoon in community hall, found eight women in attendance. They were the president and Mesdames June Mandeville, Edith Stoddard, Eleanor Swanson, Vera Frazier, Howard Mahurin, Irene Duffee, and Floyd Carnell.

Discussion regarding the many problems incidental to the proposed purchase of an ambulance and resusitator for the Tahoe region was featured. The collection of funds for these is being sponsored by the club.

Chief among the problems are the housing of the vehicle until the new building is erected on the commons and the care and operation of the ambulance after it is purchased. To clarify these problems a special public meeting has been set by Mrs. Callender for the evening of Thursday, August 9, at 8 PM in Tahoe community center hall. Since the ambulance will serve the entire lake district, resort owners, business men, residents, and members of various local clubs are invited and urged to attend and lend their voices to the discussion.

As soon as all arrangements have been completed for housing and operating hte ambulance the drive for funds by popular subscription will be started. It is believed the drive will meet with almost universal favor and the $2,500 required for resuscitator and ambulance will be reached without difficulty.

It is estimated that the new Mt. Palomar, Calif., telescope will have a 5,864,696,000,000,000,000,000 mile light range.

MY PLACE in the SUN

by DOUG BARRETT

By reading and listening this week I learned the following....It is illegal to shoot porcupine in Canada 'cause that's the only beast a person lost in the woods can club to death for food....the Placer supervisors have tacked $1,000 on the new budget to complete the Tahoe jail—and high time....Frank Carroll Giffen, San Francisco voice teacher and Truckee native, claims we're all wet when we say "Taw-hoe" 'cause the original Washoe Indian pronunciation is "Tayo".

Had a most interesting chat with Giffen and his sister, Mrs. Harriet Weymann. Giffen told the tale of how his sister and another local belle saved Boca for Cleveland and the Democratic ticket back in 1884. Seems the rascally Republicans stole all the Democratic ballots of the Boca precincts and thus disenfranchised their rivals. Hearing of this, the Truckee Democratic sachem, George Giffen, dispatched his daughter and Miss Graham with 40 tickets on horseback. Miss Giffen was thrown from her mount and knocked out down the canyon but she valiantly rose to complete her ride, deliver the ballots and save the day for Cleveland.

AROUND TOWN: Wonder whether Bud Zorich's job at the liquor store can be classified as indoor or outside work....Walt Barrett is taking a real paternal interest in the local street improvement work....Vernon Pearson up from San Luis Obispo is still an enthusiastic Truckee booster ....Art and Anna Kehm as happy as newly-hitched since Art's recent discharge....the mackinaw Herman "Bud" Owens took from Donner Lake was a sight to see—29 inches, 10½ lbs ....the Outdoor Sportsmen's prize shotgun reposing in the Sport Shop window....A. Bianchi back around town after a rest at Campbell Hot Springs...."Chief" C. L. Bagley in from Calpine boosting the rodeo there Labor Day....the fire department answered a call Saturday peeem to the Truckee Public Market when their cooler motor burned out and up....Wm. G. Paden, historical cartographer, and Wm. Curran of the forest service talking over the local segment of the Emigrant Trail.

Kentucky, with six, has furnished more speakers of the House of Representatives than any other state.

Mrs. Rost Is Honored At Farewell Party

The Dempseys are making their home on the circle in Tahoe City.

Recently Wed Tahoites Surprised by Neighbors

TAHOE CITY— Lake Tahoe Ski Club members are urged to attend a meeting on Friday night, August 23 at eight o'clock, in community hall. The special session is being called by President Ray Fellows to settle the matter of collaboration with Tahoe Tavern in operating the club's ski hill next winter.

Plans must be formulated at once for the reconditioning and improving of the hill for the coming winter sports season, as it won't be too long now before snow will be flying and there is considerable work to be done before winter sets in.

Mrs. Viola Bosen accompanied Mrs. Rose Hansen and son Billie to Sacramento on Monday. From there, Mrs. Bosen went to Albany to visit with ex-Tahoeite Mrs. Kate Stanley. The ladies returned to Tahoe Tuesday evening.

Tahoe Ski Club Meeting Is Scheduled for Friday

TAHOE CITY— Mrs. Fred Rost was presented with a lapel pin as a farewell present at a going away party in the home of Mrs. Harry Johanson last week. Refreshments and bridge were enjoyed by Mesdames Fern Schlueter, Ila Martin, Jackie Pollitt, Bessie Dockham, Bea Sturgis, Ruth Ables, the guest of honor and the hostess.

TAHOE LETTER

Continued from Page 3

he has been performing precision work on doctor's equipment, cardiographs, hearing devices, radios, etc. His wife and two little daughters could not accompany him for his week's vacation, as they are remaining below to care for Mrs. Fanger's mother, Mrs. Mary Wincomb, of New Jersey, who months ago fell and broke her leg and is just now beginning to get around again without crutches.

His daughters are Sheila, 6, and Judy, 4. Tahoeites will welcome back, too, his radio-electric service, which he conducted here before the war.

Miss Joyce Stoddard, daughter of the A. C. Stoddards of Lake Forest, made a trip to Sky Harbor on Saturday to investigate facilities of that airport for the Bruin Flying Club which she helped organize at UCLA. She is leaving Sunday for Denver to cofer with Albert Minton, organizer of the Univerity of Denver's flight club. They plan to discuss organization, activities and projects of the two clubs and lay plans for the advancement of collegiate flying. While in Colorado, Miss Stoddard will spend a week with her brother, Lee, a former Tahoeite, who went to Craig after his navy discharge to help a buddy run his ranch. Joyce is vacationing with her parents in Lake Forest during the past two weeks and will return to Los Angeles for the fall semester at UCLA.

Capt. Matthew Kelly is now vacationing at the Kelly-Ray cottage in Timberland Tract where he hopes to spend a week or ten days with his wife and two sons, and his wife's mother, Mrs. Isabella Ray. They will all return to Oregon for the winter.

Have had some grand missives from son, Jimmie, stillat Weisbaden, Germany. One told of a hunting trip he and some buddies took recently and at just about dusk he caught his first glimpse of a buck. Only it wasn't the kind of bucks we have in America. This one nearly startled him speechless. It had enormous horns like an elk and seemed immense. He had time for just one shot and it was a good one which severed its windpipe and broke its neck. It was estimated to weigh around 400 pounds. The Germans call it a Damhirsch, meaning belonging to the elk family. Now his proud mom is praying he can find some way to send the head home for mounting.... hope army regulation don't spoil my plans. He has shot others since but none as large as his first. The weather remains hot and sticky, but a lovely swimming pool is available so the boys have no complaints to make. He's still lonesome though and will welcome letters from the gang back home.

Former Midshipman Douglas Morgan, younger son of the Frank Morgans of Glendale and Tahoe's Sunnyside district, is once again a free man, just out of the service following 18 months duty. Nor was it all smooth sailing, for on one occasion while cruising about 100 miles off the Philippines they underwent 20 alerts and seven attacks from Japanese planes bent on sinking their craft. Luckily they made it through safely. He saw service in the waters off Japan, Okinawa, the North Sea and in the vicinity of Finland and Denmark. His elder brother, Lt. jg Frank Morgan, is now back on active duty with the navy and will probably remain in for 24 months. During the war he was resident physician at the Los Angeles county hospital.

Had a peek at wee Sandra Lynn Snyder, daughter of former Lt. Don Snyder of the navy, now back to earth and Tahoe for the summer with his family. The little lady is five months old and plump and adorable as a cherub. Her mom is the former Martha de Ganna, hello girl at the Tahoe telephone exchange.

Dropped in on Friday night at the Duff Deans, whose circle of friends had just discovered the Deans had quietly observed a 25th wedding anniversary on Tuesday last! One told another and before the night was over half the town had come by in impromptu fashion to wish them 25 years more good luck. Among out of town guests who left best wishes and congrats were Dr. and Mrs. Walter Hubach and Dr. and Mrs. Herbert Brennan of Sherman Oaks; Mr. and Mrs. Wm. Summeril, newlyweds from Westfood; Mr. and Mrs. Hal Roi of Sunland; Mr. and Mrs. Leon Rope of Burbank, Mr. and Mrs. Don Whittier, and FO and Mrs. Wallace Dean of Millbrae, the Dean's son. Mrs. Dean's mother, Mrs. W. B. Dennis, and Mrs. Harvey Graber of Orange left Friday following a week's visit here.

The Jerry Lundells dropped in for a visit Saturday and told us of the little six months old son who now graces the family of Mr. and Mrs. Gordon Spitsen. Hear that Gordon is now out of the army and is living in Michigan. He writes his friends that he is "putting the plaster in plaster board these days."

Had another cheery letter from Captain Hans Hansen, now living in Half Moon Bay. He is finding the weather there a bit misty, although he still prefers the song of the ocean nearby to the quiet of Tahoe. Says he is receiving his Sierra Sun regularly and greatly enjoys keeping tab on all his old friends in this region. He hopes to get up to see them all before snow flies this winter.

Before closing I learned that Bishop Noel Porter was more than grertified at the generous offerings made by the congregation on Sunday last. The collection, together with some private checks which are being sent, will permit the purchase of the property at the rear of the chapel which runs approximately 400x400 feet. The property has been offered to the church for a nominal sum and thanks to a generous public, its acquisition is now possible.

Leave you for another week and trust this finds you all in good spirits and health, with Lady Luck waiting for you just around the corner, as ever, Swanee.

The lake level on Monday stood at 6228.23 with 419 CSF of water leaving the gates in town. Coldest day of the past week was on the 16th with 37 registered and warmest was on the 18th with 81 degrees.

Mr. and Mrs. Charles Swanson were dinner guests of Mrs. Helga Olander at Forest Inn on Friday night.

Clarence Pederson and family left Sunday for Minnesota. Before departing they sold their home here to Mr. and Mrs. Earl Simpson.

Don Enfield will soon become a resident of the new tract in Tahoe City.

Mrs. Palmer Haestead and baby arrived Sunday from Parker's Prairie, Minn., to join her husband here.

LOCAL LEGION WILL AID VETS IN FILLING LEAVE PAY BLANKS

According to Daryl E. Gaiennie, commander of Truckee Post No. 439, American Legion, details now are being worked out in committee for handling terminal leave pay applications of Truckee, Tahoe and vicinity veterans who need help in filing their claims.

The service is entirely free of charge. Ex-GIs are urged to contact volunteers from the the Post who will be available for processing forms to be forwarded to Washington.

It was the American Legion that staged a ast minute rally to put through Terminal Leave and Pension Increase Bills as Congressional doors were closing recently and again it is the American Legion that offers this free service.

According to Gaiennie, the Legion is bound by tradition to render this service to all veterans, whether they are Legionnaires or not.

Machinery already set up now awaits the receipt of application blanks at local post offices which will be turned over to the local Legion Post. As soon as complete details are ready, announcements will be made through the columns of this newspaper giving full directions to applicants.

MIGHTY SUB-SURFACE BLAST . . . The atomic bomb was said by observers to have shot a column of water more than 5,000 feet into the air, or about four times higher than the Empire State building in New York City, world's tallest building. The burst shown here, with the New York skyline superimposed upon it, was photographed immediately after the bomb was detonated and the column of water had not yet reached its full height.

Forest Danger at Peak In Coming Six Weeks

SACRAMENTO, Aug. 22 —(UP)— "Welcome to California—but watch our matches and cigarette butts" is the essence of the greeting handed incoming motorists at every border quarantine station this summer.

The next six weeks will be the most critical forest fire period of the year in northern California but this peril may run a month later in southern California, U. S. Forest Service officials report.

The State Chamber of Commerce and the state division of forestry and department of agriculture have combined in the precautionary campaign to distribute thousands of warning leaflets.

Pheasants Are Planted In Sierra Valley Region

SIERRAVILLE— Wilbur Cleveland of the state fish and game commission last week released 320 Mongolian pheasants in various parts of Sierra Valley, 120 of which were brought from Sacramento fish and game breeding farm and 200 half-grown birds that were reared in Sierra Valley Fish and Game Club pens at the forest service.

The Sacramento farm supplied 306 six weeks old pheasants on June 29, but because of cold weather, a comparatively heavy loss was experienced during the first two weeks.

The birds raised in the local pens this spring were reported to be in very good condition when they were released last week. Another allotment of birds is expected soon. They will be six weeks old and will be released from the ten rearing ponds at the forest service station this fall.

Experiments by an Illinois farmer have revealed that from 340 to 350 squirts from a cow result in a gallon of milk.

Max Straubhaar Receives Award for Safe Driving

Among the 300 Pacific Greyhound bus drivers who received the safety awards from the company during the first five months of 1946 was Max Straubhaar of Truckee with a four year safety record. Accumulatively the 300 drivers have driven approximately 50 million miles without accident.

This was revealed by Glen G. Magnuson, safety director for Greyhound Lines, who pointed out that the drivers who received the awards in 1946 up to June 1 are only a small portion of the company's drivers who hold safety awards for from one to 10 years of driving without accident.

"In ability, intelligence and training, the Greyhound drivers rank high," said Magnuson, "and I feel that they may well be called the world's safest drivers. Both training and tradition give the Greyhound driver well-deserved pride in his profession. New drivers, regardless of previous experience, receive a thorough, intensive course of special training before taking over on their own. They must pass certain physical and mental tests comparable to those in the Army Air Corps. Safety is constantly emphasized, not only in training, but during their entire period of service with Greyhound. Frequent safety meetings, safety bulletins and safety contests continually keep before the Greyhound driver the goal of accident-free operation."

Nevada, Placer Counties Share in Vehicle Fees

SACRAMENTO— Nearly $5,000,000 were divided among California's 58 counties this week as Thomas H. Kuchel, state controller, apportioned motor vehicle registration and weight fees for the first half of the year.

Under the law about one-third of these motor vehicle fees collected by the state are returned to the counties for county highway maintenance and improvements. The apportionment is based on the number of motor vehicles registered in each county in relationship to the statewide registration total.

The total apportionment as announced by the controller was $4,713,455. The breakdown by counties shows the following apportionment:

Nevada county, 6,061 vehicles, apportionment, $9,154.34; Placer county, 12,397 vehicles, $18,724.04.

Trade in Your Home Town & Save.

Manhattan Main Street

W 42 ST BROADWAY

By CARL HELM

NEW YORK — It's remarkable, it's regrettable, how quickly the stranger who enters this stone jungle of Manhattan takes on a protective coloration. It consists of a stern and sour puss, a deadpan manner of face and speech.

But, as with any wise animal who senses danger, it's a matter of self-preservation. If you, from the free and friendly neighborliness of the hometowns, were to go about smiling and speaking to people as you do out there, you'd be wide-open to all the hurts and affronts of the subways and streets.

So, you become as stonily indifferent to other human beings as are the natives, when you're outside your own cave—and in that way you assert that you're no sap, you're city-wise smart.

It's just as remarkable, though, how sometimes you'll forget and smile at someone and say a pleasant 'Hello' to a startled stranger—just naturally, as you would back home . . . and the stranger, who might have come once from the state next to yours, subconsciously forgets himself, too, and smiles back.

Then, suddenly, you both catch yourselves up—because the street or subway is watching you with suspicion. You both slap on your masks and go grimly on your way—with the fixed 'Mind-your-own-business' air, in the accepted New York manner . . . because that's the way it is . . . and pity it is, and damned pitiful.
